

Summer Reading and Math Work

Dear First Grader and Family,

We would like to take this time to welcome you and your child to First Grade. We are very excited to get to know your child and family. There are fun things in store for this coming year.

We want to make sure that your child keeps learning throughout the summer so they don't lose the important ground they made in kindergarten.

Attached to this letter is a July and August reading log and some math assignments. Use the reading log to record each time you and your child reads throughout the summer. Review the sight words your child learned during the year.

We hope you have a wonderful summer and we will see you at the end of August!
